

"I want to thank you for a really great reading. I've had others in the past and none have been so enlightening and practical. I hope to get a chance to have another reading with you in the future." –T.C.

"I liked getting specific suggestions for dealing with my issues, but not mandates." – A.A.

"I thought you were remarkably accurate....It's nice to get answers to questions that have baffled me for years..." – P.L.

"You target issues in a practical, personalized way...giving people options with their lives and work...I like that you don't have to be a woo-woo oats and herbs type person to understand your readings." – B.R.

"Your judgment with my career transitions has been right on... you stated that I could have product-related ideas during Nov/Dec 2007 that could financially pay off in the first 3 months of 2008....I did have product-related ideas in the Nov/Dec 2007 timeframe... and they will be implemented during the first three months of 2008..." – C.S.
